

IN ONE SENTENCE

aersyn.ai runs the full buy-and-sell cycle, RFQ to PO, inside the Outlook your team already uses: every RFQ answered, every quote chased, margin checked before anything goes out. AI preps everything. Your traders make every call.

Built for trading teams handling 300+ RFQs a month. If you are smaller than that, aersyn.ai may be more than you need right now, and we will tell you on the first call.

PHASE 1, THE SETUP

Commercial policy	Your pricing rules and terms, applied to every quote.
Communication	Your tone and formats, so quotes read like your team wrote them.
Branded quotes	Quote PDFs in your company's colors.
Behaviors	Auto-quote on stock to start, no-stock handling, follow-up. Scope widens at your pace.
Environment	Microsoft 365 setup, connection to your stock data.

One-time setup fee, quoted on your first call.
Covers Phase 1 and **90 days of founder-led hypercare**, so aersyn.ai fits the way your desk actually trades.

WHAT YOUR CFO AND IT WILL ASK

Commitment	A 12-month term that opens with a 3-month paid proof. Exit without penalty at that 3-month decision point.
Your tenant	Runs on the Microsoft 365 tenant you already own. Access is delegated, logged, and revocable.
Your data	Never used to train a model. Full export to CSV or JSON at any time.
Your infrastructure	Nothing to install, no inbound connection. A 2-page security brief is ready for your IT.
Reversibility	Written into the Terms: your tenant, your domain, and your data stay yours.
Confidentiality	NDA available. None needed for the first call.

PLANS, EVERY FEATURE IN EVERY PLAN

	Starter	Team MOST POPULAR	Pro	Enterprise
Price per month	€500 ~\$540	€800 ~\$865	€1,800 ~\$1,945	Negotiated
Transactions included / month	500	1,000	3,000	8,000+
Beyond, per transaction	€0.90	€0.70	€0.50	Negotiated

1 transaction = 1 email processed by the AI (RFQ, vendor quote or PO, up to 50 part numbers), or 1 part number sourced on the web (same-day re-sourcing is free). Follow-ups are included and never count. Each month we bill whichever plan is cheapest for your actual volume. 10% off a twelve-month term paid upfront.
